Fall Asks Diplomatic Break in Mexico

SENATOR REQUESTS WILSON TO SEVER ALL RELATIONS

RESOLUTION IS INTRO-
DUCED BY CHAIRMAN
OF INVESTIGATION.

ASHURST SPEAKS

Supine Attitude of U. S. Is
Deplored; Military Protec-
tion Urged.

[BY ASSOCIATED PRESS.]
Washington, Dec. 3.—A resolution
requesting President Wilson to sever
all diplomatic relations with Mexico
was introduced today by Senator
Fall, republican, New Mexico, chair-
man of the senate committee
charged with an investigation of the
Mexican situation.

"I charge," said Senator Fall,
"that the Mexican embassy, the
consulate general in New York, and
the consulate general in San Fran-
cisco have been actively engaged in
the distribution of bolshevik propa-
ganda and that this has been done
with the knowledge and consent of
Venustiano Carranza."

"Evidence is astounding," which
also asked that the president with-
draw recognition of Carranza, Sen-
ator Fall declared it was based on
evidence which would "astound the
world" when produced. The resolu-
tion was referred to the foreign
relations committee.

Explaining his resolution, which
also asked that the president with-
draw recognition of Carranza, Sen-
ator Fall declared it was based on
evidence which would "astound the
world" when produced. The resolu-
tion was referred to the foreign
relations committee.

Senator Ashurst declared that for
eight and a half years he had sought
in vain for action by the war de-
partment to protect the lives of
those along the frontier. He ac-
cused the war department of ad-
opting a policy of "appeasement" and
encouraging the Mexicans to believe
they could strike with impunity.

Declaring that Mexicans were
gathering on the frontier in such
numbers as to make it appear men-
acing, the senator appealed for an
immediate mobilization of American
forces.

UNDERTAKER SUITOR HELD IN TRUNK DEATH

[BY ASSOCIATED PRESS.]
Lawton, Mich., Dec. 3.—The in-
quest into the death of a young man
found in a trunk in the basement of
his home here, was held today at the
conclusion of today's session an
adjournment will be taken for a
fortnight.

It will be done to enable Dr. A.
S. Warthen, dean of the Pathological
department of the University of
Michigan, to make a careful examina-
tion of the viscera of the dead
body.

Dr. Warthen yesterday expressed
the opinion that death was due to
septicemia, and added that the body
had been embalmed before being
placed in the trunk. Dr. Warthen's
testimony followed that of Joseph
Virgo, a former undertaker, who tes-
tified that he had frequently talked
of marriage with Miss Tabor.

Virgo was expected to be recalled to
the witness stand today as was
Mrs. Walter Tabor, wife of Miss Tabor's
brother, for whom search is being
made in several western cities.

Mrs. Florence Tabor Critchlow, who
discovered the body of her younger
sister last Sunday, remains in cus-
tody, following her refusal to testify at
the coroner's inquest. Virgo is also
under detention.

Miss Tabor from Miss Tabor
Ogden, Utah, Dec. 3.—Miss Tabor
was killed Feb. 18, 1918.

Mr. and Mrs. Day, Ogden, announced
today she had a letter written by
Miss Tabor, and dated at Lawton,
Mich., Feb. 18, 1918.

Tabor wrote that she would like to
return to Ogden but is uncertain as
to her plans since "my sister is
making trouble" and "my father
left to mother and me."

Joseph Virgo testified today that
he had been informed Miss Tabor
was a delicate confidant prior to
her disappearance nearly four years
ago. He added that he had refused to
become involved in or advise an ille-
gal operation.

est daughter of Mme. Calve, widow
of the former minister from Costa
Rico. Miss Calve is charming and
talented and a great favorite in di-
plomatic circles. She is expecting
to leave Washington shortly to spend
some months in Porto Rico. She will
be missed by the younger set from

SCHOOL TEACHERS WIN \$200 SALARY RAISE FROM SEPT. 1

MINIMUM OF \$1,050 FOR GRADE INSTRUCTORS FIXED
UNDER NEW SCHEDULE; JANITORS GET \$10
PER MONTH MORE, BEGINNING
DECEMBER 1.

A \$200 salary raise for every public school teacher in
Janesville and a \$10 monthly boost for each school janitor were
authorized by the board of education after a strenuous session
of more than four hours at the high school last night. The
teachers had petitioned for a flat \$300 increase per annum; the
janitors had specified no terms.

The teachers' increase takes effect immediately and is
retroactive to Sept. 1, 1919, while the janitors' raise was made
retroactive to Dec. 1, 1919.

With the raise of \$100 given
teachers two months ago the
increase is now \$300 above
their contracts made in the
summer.

The raise in teachers' pay
will total \$18,600. The city
will have to go into debt in the
spring of 1920 to provide
funds, Mayor Welsh said, as
the budget for the year has al-
ready been adopted with provision
made for the school fund upon the
old salary schedule.

The new salary schedule means
that grade school teachers will be
paid a minimum salary of \$1,050
and a maximum of \$1,250 while
teaching principals will receive from
\$1,110 to \$1,320.

High school teachers will receive
a minimum of \$1,050 and a maxi-
mum of \$1,250.

Salaries of half of all the grade
school teachers will range up to
\$1,060 while 60 percent of the high
school instructors will receive up to
\$1,300. Eleven high school teach-
ers will receive more than \$1,300.

The decision to authorize the \$200
raise was the culmination of hours
of discussion and of the teachers'
campaign which has been waged
quietly for the past two months.

After inspecting the point that
living expenses had risen close to
the \$1,300 mark. She told of the
money teachers had spent on their
education, declaring that unless sal-
aries were increased it would soon be
impossible to secure competent
teachers.

Mayor Calls Charts Worthless.
Branding the \$300 flat raise in-
crease as "ridiculous" and "unrea-
sonable," Mayor Welsh assailed the
charts prepared by the teachers in
connection with their petition as be-
ing exaggerated and 60 percent in-
crease. After inspecting one such
chart showing comparative salaries
paid to men and women in Janes-
ville, the mayor spurned the others.

LADY ASTOR BREAKS RULES OF ORDER BY CHAT "INSIDE BARS"

[BY ASSOCIATED PRESS.]
London, Dec. 3.—Lady Astor
experienced her first "call to order"
in the house of commons
last evening. She was returning
from the bar where she was sitting
and stopped to chat with another
member "within the bar" where no one is allowed
to stand. The speaker called
"order," but Lady Astor, un-
aware she was addressed, con-
tinued talking. The speaker
raised his voice and re-
peated his warning.

Lady Astor turned around
quickly, realized she had been
called, stepped quickly beyond the bar
and continued her conversation
there.

WOOD, WILSON, AND FRAZIER ENDORSED FOR PRESIDENCY

[BY ASSOCIATED PRESS.]
Pierre, S. D., Dec. 3.—Major Gen-
eral Leonard Wood, President Wil-
son, and Senator Frazier, today had
the endorsement for president of the
United States, of the republicans,
democrats, and the union league,
respectively of South Dakota. The
endorsements were made at the state
conventions of the three parties last
night. The "democrats" also en-
dorsed the "vice-presidency."

The Non-Partisan league did not se-
lect a candidate for that office.

The democratic platform had for
its keynote permanent peace under
the league of nations, while Ameri-
canism stood out as the paramount
issue of the republican resolutions.

Both democratic and republican en-
dorsed the league of nations cov-
enant, the former unreservedly and
the latter "with proper reservations."

The bill of the republican platform
favored nationalization of public
credits and resources and public
ownership of public utilities.

Both parties endorsed the
republican platform.

Republicans for governor, W. H.
McMaster; United States senator,
Governor Peter Norbeck.

General Leonard Wood, W. W.
Howes; United States senator, E. S.
Johnson.

ernor, J. H. Baker; United States
senator, Thomas Ayres.

CARLISLE, TRAIN BANDIT, CORNERED IN WESTERN HILLS

[BY ASSOCIATED PRESS.]
Douglas, Wyo., Dec. 3.—Two score
more years of prison life, possibly
death in the electric chair, confront-
ed William Carlisle, train bandit, to-
day in Douglas hospital with a
bullet hole in his right chest, while
armed guards hovered in the back-
ground of hospital nurses to prevent
his escape.

Carlisle was shot down in a cabin
yesterday by Sheriff A. S. Roach.
Wheatland, as the bandit, cornered,
made an attempt to escape, but was
given battle. The posse had trailed
Carlisle since Sunday morning,
through a blizzard, by team, on
horseback and on foot, for four hours.

Drifts of snow were encountered too
great for a mount to traverse.

The outlaw who had eluded pur-
suit since his escape from the state
prison at Rawlins on November 15
and subsequent robbery of the Los
Angeles limited train near Medicine
Bow November 18, was strapped to
a pack horse and brought down the
Laramie Peak, 18 miles southwest of
here, then bundled into an automo-
bile and rushed to this city.

Just what disposition will be made
of him has not been determined. He
was serving a life sentence, which
had been commuted from 50 to 25
years when he escaped in 1918.

When first discovered, Clough had
been dead nearly 10 minutes. The
body was found in a ditch, and it was
for the lung motor and it was used
for several minutes without avail,
physicians pronouncing useless all
efforts to resuscitate him.

Death was pronounced due to
heart failure by physicians who were
called, although some expressed
opinions that escaping gas was the
cause. County Coroner Lynn Whaley
said an inquest would not be neces-
sary.

four brothers and two sisters.

GROANING "GHOST" IS PUSH CART PEDDLER

[BY ASSOCIATED PRESS.]
New York, N. Y., Dec. 3.—Occu-
pants of a Ridge street tenement
house were "almost correct today
when they reported to the police that
the groans of a "ghost" had been
hearing them for two days. Detectives
aided by firemen, dug a hole in a
cellar, and found the body of a man
who informed them that, business
being bad he had decided to end
his life by jumping down the fire-
stone chimney Monday morning. He
was taken to a hospital suffering
chiefly from hunger and exhaustion.

Loyal Legion Condemns Berger; Asks Deportation

[BY ASSOCIATED PRESS.]
Wausau, Wis., Dec. 3.—At a meeting
of the local post of the American
Legion, Victor L. Berger was severe-
ly condemned in resolutions
drawn up and adopted unanimously
amid cheers and applause. It was
resolved to uphold the action of the
American Legion at Minneapolis that
"Victor Berger and his like de-
serve nothing better than deporta-
tion from America."

FORD - NEWBERRY VOTE INQUIRY IS ORDERED IN SENATE

INVESTIGATION AUTHO-
RIZED AFTER LESS THAN
MINUTE'S DISCUS-
SION.

TO CHECK FUNDS

Charges of Excessive Expen-
ditures to Be Looked Into
Specifically.

[BY ASSOCIATED PRESS.]
Washington, Dec. 3.—Investiga-
tion of the Ford-Newberry sena-
torial election contest from Michigan
was authorized today by the senate,
which adopted a resolution by Sen-
ator Pomerehne, democrat, Ohio, pro-
viding for the inquiry.

No roll call was necessary and
there was less than a minute's dis-
cussion to bring out the meas-
ure. The resolution was approved
previously had been approved by
the house.

The resolution under the resolution
is not expected to start until after
the holidays and they may be confined
to the election since the alleged
frauds during the primaries now are
being dealt with by the courts.

Committee Has Wide Powers.
The Pomerehne resolution gives the
committee broad powers to take evidence
and to preserve ballots and other docu-
ments. It specifically directs in-
vestigation of "charges and counter-
charges of excessive and illegal ex-
penditure of money and unlawful
practices in connection with the said
election of a senator from the state
of Michigan."

Senator Dillingham as chairman
of the committee, will have charge
of the investigation. He is expected
to arrive in Washington Saturday
and the committee will meet next
week to make the inquiry.

Senator Newberry was not in the
senate when the Pomerehne resolu-
tion was adopted.

Ballot Boxes Preserved.
 Lansing, Mich., Dec. 3.—With a
few exceptions the ballot boxes con-
taining the ballots cast in the sena-
torial election of 1918 have been pre-
served and will be available to the
senate committee which will investi-
gate the Ford-Newberry contest.

JANESVILLE BANKS REPORT UNUSUAL DEPOSIT INCREASES

Substantial proof to back Janes-
ville's recent boasts of financial
growth and prosperity is contained
in a complete compilation of present
deposits in the four banks together
with a report of total assets com-
pared to figures issued a year
ago.

The stupendous increase in the
amount of deposits during the past
year is unprecedented in the history
of Janesville banks. The present
combined total of deposits in all four
banks is \$8,754,680 as against \$5,
133,238 one year ago. This is an in-
crease of 68.7 percent within a year,
considered an abnormal rate for de-
posits in any city in the country.

Every bank in the city reports an
increase of more than 50 percent—
the lowest reported by any bank is
35 percent, the highest 83 percent.

The total is thousands of dollars
higher than the top figures predi-
cated by bankers themselves a year ago.
Janesville banks should draw on
deposits for the year was \$3,566,412.
The phenomenal increase in business
has made necessary the enlargement
of office forces. Several of the
banks are discussing plans for ex-
tensions to better equip them to
handle the business as it increases
in the future.

Estimating the city's population at
15,000 the deposits per capita aver-
age \$586. If all the depositors in
Janesville were to draw out their
money in dollar bills and place
them end to end they would stretch
from Janesville to New York City,
in 1,000 bills the line would extend
from this city to Edgerton. In
weight the total deposits would
be the value of 35,300 Troy
pounds of gold.

The 68 percent increase in de-
posits has had its resultant effect in
raising the total assets of all banks
to \$10,372,770, or more than half of
the assessed valuation of all real
estate and personal property in the
city. Assets in the four banks total
\$14,170, making the increase for the
year \$3,758,600 or 72.4 percent.

SMITHS HIT HIGH MARK IN VARSITY FAMILY GROUPS

[BY ASSOCIATED PRESS.]
Madison, Dec. 3.—With a fam-
ily group of 67, the Smiths, have
their cousins, the Schmidts, have
the largest representation among the
6,872 students now enrolled in
the University of Wisconsin,
according to the 1919-20 student
directory just issued. There are
61 Smiths and 15 Schmidts.

Next in voting strength are the
Johnsons with 49. Millers fol-
low with a family of 34, and close
behind them are 33 Taylors.

The Jones, have sent only 30 rep-
resentatives this year, and are
therefore outnumbered by the 32
Taylors, an unusual situation.

tion lively.

GERMANY TO SIGN IF OBJECTIONS REMOVED

[BY ASSOCIATED PRESS.]
Paris, Dec. 3.—Germany is willing
to sign the protocol putting the
peace treaty into effect the moment
certain clauses objectionable to her
in the protocol are eliminated. Baron
Kurt von Lersner, head of the Ger-
man delegation here, told The As-
sociated Press this afternoon.

When the German plenipotentiary
was shown the statement given out
by the British delegation on Monday
he informed Paul Dumas, secretary
of the peace conference, that Germany
had decided not to sign the protocol,
Baron von Lersner said.

"I have full powers to sign the
protocol and am ready to sign it at
any moment when the question of
Scapa Flow is eliminated."

These observers declare that
while the peace treaty is necessary
before the senate's adjournment,
desired the peace treaty ratified
as soon as possible, they are now
supporting the government's atti-
tude in insisting the German
allies for indemnity for the sinking
of the German fleet at Scapa Flow,
recompense for which was provided
in the peace treaty.

The question upon which the Ger-
man reports here, however, appear
most sensitive, is the insistence upon
a trial of German officers ac-
cused of the commission of crimes
in France and Belgium.

The supreme council today ad-
dressed a note to Germany protest-
ing against the increase of Ger-
many's armament.

FEDERAL TRADE BOARD TO BE INVESTIGATED

[BY ASSOCIATED PRESS.]
Washington, Dec. 3.—Somewhere
along the "Soo" or the Chicago, Mil-
waukee and St. Paul road, is a box
car nearly filled with T. N. T. This
box car is the property of the
Federal Trade Board, and it is to
be used in the big land clearing cam-
paign inaugurated by the state of
Wisconsin. Three hundred pounds
of dynamite were loaded on the
box car, and the car was sealed and
through the error of a shipping clerk
marked "empty."

There still remains in the car \$700
worth of dynamite. The car is to
be blown up by a whole company,
and the rail officials are carrying on a
hurried investigation to head off this
"empty" in its journey through
either Wisconsin or Michigan.

FIVE ALDERMEN AND SEVEN OTHER CITIZENS WILL ACT IN HANDLING EMERGENCY ARISING FROM STRIKE

U. S. Orders

In order to conserve coal to the
greatest possible extent, effective
at once, coal consignment supple-
ment are directed to confine the
delivery of coal as follows:

First: Army, navy or other
branches of the federal govern-
ment.

Second: State, county and
municipal institutions and pri-
vate hospitals.

Third: Public utilities (plants
furnishing light, heat, water,
power, transportation) manufactur-
ers and users of news print
paper.

Fourth: Public buildings, of-
fices, stores, bakeries, laundries,
dwelling houses, and other build-
ings housing families.

Fifth: Coal storage plants.

Sixth: Coal for the bottling
and milk canning factories.

Seventh: Refiners of petro-
leum.

Eighth: Plants not included
in above list only to extent neces-
sary to protect against fire and
freezing.

The instructions to apply on
coal now on hand in yards and
hereafter released.

Dealers will not deliver coal to
any consumer in any of the
above classes having a supply on
hand equal to one week's re-
quirements.

It is understood that local coal
committees and local fuel ad-
ministrators, where appointed,
will cooperate with railroad
agents in checking applications
for release of coal, will supervise
the distribution by retail dealers,
the use of power by public util-
ities, and take such other action
as in their opinion is necessary
to insure the carrying out of the
provisions of the order issued De-
cember 1 by Dr. Harry A. Garfield,
United States fuel adminis-
trator, quoted below:

"It is necessary that coal shall
be used only for essential pur-
poses. Public utilities consum-
ing coal should discontinue to
furnish power, heat, and light to
non-essential industries, and
should only consume sufficient
coal to produce enough light,
power and heat to meet the ac-
tual needs of the people."

The advisory committee named by
the mayor follows:

Chairman: Harry
V. Ross, secretary: J. E. Aulen, Jesse
Farle, Joseph M. Connors, Rev.
Henry Williams, Rev. Francis White-
man, L. H. Horn, W. W. Menzies, L. J.
Cronin, Emil Pautz, J. J. Kelly.

The committee will also have full
power to advise relative to the distri-
bution of the eight carloads of coke
—about 200 tons—purchase of which
was effected by the city yesterday
afternoon through George S. Parker's
office, and to the local situation
distribution will be given in the Ga-
zette later. Efforts are being made
to speed up the shipment.

The Fifield Lumber company an-
nounced that it received two carloads
of coke today which it would turn
over to the committee to apportion
as seen.

How to Invest \$1,000 to Net \$60 a Year

"I have \$1,000 to invest. Where can I place my money so that I can be assured of—

- complete safety of principal;
- prompt payment of interest in cash;
- protection against depreciation in value;
- freedom from care, worry, or management;
- six per cent interest?"

Such is the problem many investors are facing. First mortgage serial bonds, underwritten by S. W. Straus & Co. and safeguarded under the Straus Plan, solve all such problems. They meet each and every one of the above requirements. One thousand dollars, invested in these safe bonds, will yield \$30 every six months—\$60 a year. Five hundred dollars will yield \$15 every six months. An investment of \$5,000, netting \$300 a year, may be so diversified as to yield \$25 every month.

CHURCH SUPPERS AND SALE WELL ATTENDED

Fully 700 people were fed bountifully at the church suppers, given last evening at the different churches. Large numbers of articles were sold at the Christmas sale, which was given in connection with them. About 450 people at the Methodist church and 250 at the Congregational church and 250 at the Congregational church and 250 at the Congregational church.

The sale at the Congregational church was in charge of Mrs. E. D. McGowan and Miss Ida Craig. Harry Day was the cashier. Mrs. H. Kurst and Mrs. A. W. Butler had Japanese goods, Mrs. S. M. Smith had an assortment of doll clothes, including knitted tams and other seasonal goods. Mrs. Allen P. Lovejoy a table of pottery and writing paper, and Mrs. McGowan and Miss Craig one of embroidered articles, fancy bags, aprons, and novelties. A real live bunny in a box delighted the children in this department.

15 EGGS A DAY FROM 23 HENS, IN WINTER

Mr. Dunl's Hens Increased Every Day. Plan is Easily Tried.

"We have 22 chickens and hadn't had an egg all winter. In five days after feeding Don Sung, we got four (2 five eggs) a day. In three weeks we were getting 10 to 12 eggs a day. In five weeks we got 15 to 19 eggs a day." John Dunl, Box 102, Cherry Valley, Pa.

Mr. Dunl started giving his hens Don Sung in January, in zero weather. He now keeps his hens busy in cold weather, when hens usually stop laying. A trial cost nothing. Here's our offer:

Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed. Improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

Try for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 25 cents for a package by mail prepaid. (Burrell-Duggar Co., 245 Columbia Bldg., Indianapolis, Ind.)

OFFICERS' COUNCILS FORMED IN STATE

(By Lieut. Col. Byron Beveridge.)

Madison, Dec. 3.—While it is impossible at this time to obtain the number of commissioned officers Wisconsin had in the war, some idea may be had from the figures in certain cities. Madison had 70; Appleton, 69; Kenosha, 75. These are considered at the adjutant general's office as a fair estimate of the various cities of the state. These officers have been requested to organize officers' councils to use their influence in supporting the guard. Among these so organized, Kenosha reports 45 members; Port Atkinson, 77; Fond du Lac, 56; Wausau, 15. These associations are without one official—a treasurer—there being no dues.

Heart and Home Problems

BY ELIZABETH THOMPSON
5 Letters May be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: Two years ago I met a young man I loved at first sight. I did not have the pleasure of his company, as he volunteered for service in France, where he spent eighteen months. While he was in camp we corresponded in a friendly way. After he returned from France I met him at a party again and from that time on we were together frequently. He works in another town. About four weeks ago we quarrelled because of another girl in the town in which he works. A few days ago I received a letter from him asking me to be sorry for the way I acted. I really am sorry, but don't think I should tell him. Or should I? How can I win him back and not compromise myself?

BILLY.

Probably the boy wants to be friendly and tried to put humor into his letter. I should take it that way if I were you. Answer his letter and tell him that you have forgotten the incident. Do not apologise or mention the subject at any length. Never show jealousy of the girl again.

Dear Mrs. Thompson: I am engaged to a boy working here, but his name is in another state. His mother is aware of the fact. Should I correspond with his mother? I am to be married Christmas and I have never met his mother.

BOB.

Your fiancé's mother should write to you first. Doubtless she doesn't realize that you would enjoy a letter from her welcoming you into the family. I would wait, however, until she does write.

Dear Mrs. Thompson: I would like to know if it is proper for two sisters to go riding with two boys after dark? We always go together.

She Married an Average Man

By ZOE BECKLEY.

I had another trying scene with Eric Sands today. I was out my guard. I had finished my work and was having lunch with Athena. My mind was made up to tell her everything—the chief of my mother-in-law's visit, Jim's continued coldness and resentment at my work and my feeling so much at Athena's. My struggle in regard to Eric—when he dropped in unceremoniously and found me tearfully beginning the recital of my woes.

"Come on out for a walk, you two temperamental souls," he cried laughingly. Of course Athena declined. And, of course, I went.

"You have not answered my question, Ann, and you must answer it. Do you or do you not really love your husband?"

It was easier this time. I did not feel so trapped, so helpless as when he held me close by the wrists, sending through me those terrifying, sensuous thrills that robbed me of voice and thought.

"Frankly, Eric, I do not know," said I, miserably, for it is never an easy thing to tell a man like Eric Sands that the husband you truly chose a short year ago has disappointed and exasperated you in a hundred ways. For Eric loves me. I do not deceive myself on that score any longer. One fatal admission from me and Eric would sweep me off my feet, blind me to consequences with his fluent words, destroy my sane judgment by the dangerous charm his touch, his very presence, has for me, and by feeding my hungry spirit with his sympathy make me utterly unfit to find out my own heart's needs.

"That means," he answered, "that you do not. If you are starving to death you don't have to stop and think. 'Am I hungry?' At Christmas time you don't question whether you're freezing or not. When you have drunk champagne you do not need to ask yourself what makes your blood leap and your spirits soar. It's the same with loving. If you don't know, then you don't love."

"No, Eric, you are wrong. What you say applies more to passion than to love. There are many kinds of love. I admit that real love cannot exist without the tumult that is as wine in the veins. But when that dies down, or even dies completely, something better is left."

"Affection, congeniality, understanding—they are quiet qualities. But they make happy marriages. What I mean, Eric, is that you cannot judge love solely by thrills. Love and fire may both be there. But because fire is, does not prove that is so. I make myself plain, I wonder?"

Eric looked at me with mock critical eyes.

"Well, hardly plain, I should say," he laughed. "The wind has mused you up a bit, and I'm not liking that pumpkin-colored sweater, although it matches your hair rather well, but on the whole I shouldn't say you've made yourself exactly plain."

It is just such interjections of silliness, his refusal sometimes to take me seriously when I am churned up over something, his boyish way of laughing with me and at me, yet all

THE DANGER OF BEING ALIVE (12)

Consumption of Never Inherited.

In the slovenly age of diagnosis, when almanacs and self-commending quacks were popular, there was a strong general belief that consumption (tuberculosis of the lungs) ran in families and was inherited. Whether the medical profession lent support to this belief is now of no importance; certain it is that the belief encouraged one shameful practice of the old time doctor, and that was the habit of resorting to the subterfuge of "weak lungs," "slight catarrhal trouble in one apex," and other vague phrases in lieu of a frank and honest diagnosis or at least an opinion, in cases of possible tuberculosis. No doubt it required a great deal more courage for a doctor to frankly say he did not know as yet whether the patient had tuberculosis, than to say he had it, and to register for the majority of patients were unintelligent then, while today the majority of patients are intelligent enough to get the real story. Today, too, only the most ignorant patients expect a doctor to reach a positive conclusion in a few minutes. Thirty years ago the doctor had to jump at a conclusion in many cases or see the patients run off to some lesser honest if more cheerful healer. A child born of a mother who has lung tuberculosis is doomed to contract the disease from the mother shortly after birth unless immediately removed from contact.

In infancy and early childhood the system appears to be more receptive and the same line of short-cut reasoning to the tubercle bacillus than in youth and early adult life. Tuberculin tests, which are extremely delicate tests for tuberculosis but not for disease, are generally understood, show that nearly all children are infected with tuberculosis in infancy. According to some great students of the subject, fully 99 per cent of children in the cities are infected with tuberculosis in infancy, either through personal contact with one who has the disease (whether a relative or not), or through dust inhalation while creeping about floors, or through milk from herds which have not been tuberculin-tested and freed of infected animals. But as a rule this childhood infection remains dormant, or "latent," in some lymph node or "kernel" deep in the abdomen, deep in the chest or in the neck. In adolescence or later the latent infection, through some temporary impairment of health and resistance, as by too great confinement, too long hours of overworked schoolroom life, lack of daily open air play or exercise, perhaps in some instances faulty rearing, becomes active, and tuberculosis

WAYS TO COOK FISH

Filets of Founder.—Have the fish dealer make the founder into four thin filets that give and remove the skin. Place the filets in a dish and spread over them one onion (sliced), one green pepper (minced fine), juice of one lemon and two tablespoons of salad oil.

Cover and let marinate for one and one-half hours, then lift and roll lightly in flour. Then dip in beaten eggs and roll in fine crumbs. Fry until golden brown in hot fat.

A Gift of Ever Increasing Worth, for
"The Longer You Play It,
The Sweeter It Grows"

Hepplewhite Period Model

You will admire the craftsmanship exemplified in Cheney cabinets. Each of period design. The model illustrated below is 43 in. high, 20½ in. wide and 21 in. deep. All metal parts are beautifully nickled. Each instrument is equipped with two reproducers for playing all records, and steel and jewel needles. Automatic stop and shelves \$165 for records.

A PRACTICAL gift, yet breathing refinement and elegance. A gift that all the family can enjoy, and a gift that will become of increasing worth.

For it is true of the Cheney alone that "The Longer You Play It, the Sweeter it Grows." Within each Cheney cabinet are enshrined acoustic principles never before applied to tone reproduction—improvement upon old methods which give to the Cheney tones unrivaled in sweetness, beauty and richness.

Forest Cheney, musician, inventor and scientist, adapted the fundamental principles to tone reproduction which give the violin its sweetness and purity of tone and the pipe organ its rich fullness. He has achieved new heights—he has set his instrument in a class apart.

The Cheney gives piano records the very timbre of piano tones, keeps all of the parts of an orchestra record in perfect balance, maintains the purity and fullness of vocal records which characterized the original production. Needle scratch and mechanical noise are virtually eliminated.

The Cheney plays all records—it is a masterpiece. To really appreciate it, you must hear it.

trip - this winter

The journey to California and back, by any of the trans-continental routes, is very interesting. It may be made doubly attractive by stopping off and seeing some of the attractions en route.

Visit the thriving cities of the North Pacific Coast, the Rocky Mountain Region, or the vast Southwest. You will find them to be modern industrial and business centers—an embodiment in stone and brick and steel of the spirit of the West.

See some of the National Parks that are open all winter. Each has its individual charm.

Ask for information about Excursion Fares to certain winter resorts.

"California for the Tourist," and "Hawaii," and other resort booklets, on request. HIGH SCHOOL CLASS TEAMS PLAY TODAY IN BASKET GAMES

Enthusiasm at the high school is at the height for the afternoon's basketball games when the Seniors meet the Freshmen and the Sophomores the Juniors in the school gym to decide which team will play the other in the championship of the institution. The games will start immediately after school hours.

Practice and an extra tough amount of it has been the keynote of the work of the teams during the past few days. All four squads are claiming the best men belong on their team, but not until after this afternoon will the result be known. Indications are that the seniors may win out.

Tomorrow night the winners of today's games will clash to decide the title. On Friday the winning team will take on the city five.

Greatest interest of all centers in the "proff" battle when the teachers, including Coach Crabtree and Manager Zimmerman, play 100 in the "Proff" game. Mr. C. A. physical director to play with them.

Sickness Cure or
Sickness Prevention

Louis Pasteur When Pasteur proved the relation of germs to infectious disease, he marked a big advance in that development of medical science which reigns today—the Idea of *Sickness Prevention*.

As a result, many plagues and epidemics that were the bane of former ages no longer terrify the world, and science has now developed an effective agent against the condition which is the first cause of over 90% of all human disease—*constipation*.

That effective agent is Nujol.

Nujol by relieving constipation prevents the absorption of poisons which otherwise would be taken into the blood and so under-mine the whole system.

Leading medical authorities agree that pills, salts, castor oil, etc., simply *force* and weaken the system.

But Nujol is *entirely* different.

But Nujol is entirely different. Nujol prevents constipation by softening the food waste and encouraging the intestinal muscles to act *naturally*. Nujol helps nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

For valuable health booklet—"Thirty Feet of Danger"—free, write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, N. Y.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark at various prices. Beware of products represented to be "the same as Nujol". You may suffer from substitutes.

Orfordville News

[By Gazette Correspondent.]
Orfordville, Dec. 2.—The Ladies Aid society of the M. E. church, tendered to Mrs. C. S. Dunn, Tuesday afternoon, a farewell party. The gathering was held at the home of Mrs. W. P. Gavey and an enjoyable afternoon was spent. Refreshments were served, before departing for home. Mr. and Mrs. Dunn will leave in a few days for Seattle to make their future home.
The east bound passenger Tuesday morning was three hours late, not arriving here till after 12 o'clock. It was reported that they had encountered deep drifts of snow near Calumet.

Complete Cost Saving Service for Truck Owners

Our service is based upon three fundamental things which affect trucking costs:

1. Selection of Tires
2. Application
3. Inspection and Care

We analyze your loads, your roads, and your work, and determine accurately the proper type and size of tire needed. We sell Goodyear Solid Tires, Goodyear Cushion Tires and Goodyear Pneumatic Cord Truck Tires because we believe in their quality and know they do wear a long time.

Then the tires are applied according to a carefully worked out method which means absolute accuracy as well as speed and safety. We have ample parking space, a big hydraulic press, capable workmen and well equipped work shop. Arrange-

ments can be made, if desired, to do the work at night or on Sunday to save layup.

After the tires are in use we inspect them for you at regular intervals. Tires need care just like the engine and we know of many ways to help you prevent tire trouble and consequent loss. Our men make regular reports to you of each tire's condition and watch for signs of driving abuse.

This service does keep truck costs down. It does give you better cartage results. So let us send a man—an expert—who can go over your trucking problems with you and explain further the savings we can effect.

HOOSIER

—the Kitchen Cabinet that saves miles of steps

The Christmas gift every housewife wants

FEW gifts appeal to the housewife as much as those that save her time and strength and which add to the attractiveness of her home. Among this class of gifts is one that meets every requirement—the Hoosier Kitchen Cabinet.

Because of its scientific arrangement and many patented features, the Hoosier brings vital conveniences—time and labor savers—not to be found elsewhere. Every detail is the result of years of kitchen experience; every worthy device is included.

What other gift could equal several extra hours of leisure each week? This is the fundamental upon which Hoosier is constructed—the saving of time and toil; the rendering of efficient kitchen service.

The prices are within range of all. Easy terms if desired.
